PROJECTS

- Science Festival Info Assistant Website (Volunteering Project)
  Role: Backend Developer
  Description: Developed an informational website for a science festival in Myanmar to assist event visitors with real-time info.
  Tools Used: HTML, CSS, JavaScript,PHP
  Duration: Oct 2023 - Dec 2023
  Results: Improved visitor navigation and engagement
  GitHub: https://github.com/SmtTheSE/Informational-Assistance

- Xoxo - University PHP Project
  Role: Backend and Frontend Microservices Helping
  Description: A voting website for various usages.
  Tools Used: HTML , CSS , JavaScript , PHP
  Duration: Apr 2023 - Jul 2023
  Results: Got a suggestion that UI was too focused and UX quality is a little weak.
  GitHub: https://github.com/SmtTheSE/Xoxo
